

PCB ASSEMBLIES WITH GLOBAL STANDARDS

We aim to grow **Sustainably**,  
We aspire to **Succeed**,  
We are **ST Group**.

SANJAY TECHNOLOGIES PRIVATE LIMITED

**ST**<sup>™</sup>

TECH  
BEYOND

Green Energy

Green Transportation &  
Green Agriculture

for a Green Planet

At ST Group, our core mission is to achieve environmental sustainability and social impact. The Family groups' businesses are driven by a legacy of over 100 years. Today, ST group's vision is to look beyond this family legacy and leave a progressive mark by using the latest technologies to launch sustainable businesses in the future. We at ST Group aspire to take on the leap for a better tomorrow by retaining their core values and going beyond them with modern-edge tech-oriented thinking to deliver sustainable solutions for a sustainable future.

At ST Group, our mission is not only to grow the brand but to prosper together with our customers and stakeholders by providing reliable, quality and trustworthy services at optimal cost with on-time delivery.

## ST GROUP OF COMPANIES

**Sanjay Technologies Private Limited**, Providing the best sustainable solutions for EMS & CMS, ODM & OEM requirements across the Global Clients, Since 2005.

**PCB-A PROTOTYPING SOLUTIONS** - Turnkey Service from Design & Development, PCB Fabrication, Component Sourcing, Assembly and Test Validation & etc.

### EMS / CMS SOLUTIONS

- PCB Fabrication & Component Sourcing
- SMT, THT & Mixed Assembly Services
- Automated AOI Inspection
- RoHS Reflow & Wave Soldering Services
- Programming & Testing
- Turnkey Solutions
- DFM & DFT
- Box Build Assembly
- Cable & Wire Harness

### **Sanjay Eco Green Power Private Limited**,

With our world's leading wind turbine generators, we are capable of delivering enough wind power at an affordable cost to our consumers.

### **Sanjay Agro**, our mission is to go beyond food

security goals, where we aim to put pesticide-free food products on the tables throughout the year thereby promoting and delivering healthy lifestyles for all our customers.

**Vari Energy Private Limited** is part of the ST Group's Energy Division started in 2021 to provide EV Charging Infrastructure for Green Transportation using Green Energy.

Our Group of companies have started an Initiative of Green Energy Green Transportation Green Agriculture for a Green Planet. We are offering Net Zero Carbon Emissions infrastructure.

### **ELECTRONIC MANUFACTURING SERVICES**

We offer up-to-date manufacturing processes to Indian and Foreign companies in through-hole, mixed and SMD processes. Low volume to Medium volume, complex to simple assembly processes by delivering to their expectations. Box building, Product assembly and PCB repair management solutions are also being offered.

### **TRANSFORMER AND COIL**

Our comprehensive in-house capabilities allowed us to define and produce transformers and coils as per customer requirements with quality that is expected out of us at competitive prices.

### **CABLE AND WIRING HARNESS**

A Wire Harness, also known as a cable harness or wiring assembly, is a grouping of wires, cables, or subassemblies designed to transmit signals or electrical power.

Our experienced staff is available to share their expertise to develop the most efficient harness to meet your demands.

### **BOX BUILDING**

Our box build assembly and mechanical engineering capabilities are integral to our turnkey electronics manufacturing solutions. We provide the right solutions involving the integration of assembled boards into an enclosure or a front panel assembly with a keypad display, full wire harness, connectors, and switches.

### **COMPONENT SOURING**

We have vast supplier network all around the globe to streamline the component sourcing process, reduce costs, and ensure the availability of high-quality components for electronics manufacturing.

- Strong local & global Supplier Network
- Component Validation
- Cost Optimization
- Extensive Obsolescence Management support

STPL's modern facilities using the latest fully automatic SMT lines located in Combatore with enough resources to expand to customers' requirements and having customers who have been with us since our inception.

#### OUR PROMISE

At STPL, our main objective is to give our clients uncompromised quality with timely delivery at a reasonable cost. To cater to customers growth, we are ready to enhance our resources as required by customers.

#### QUALITY

Our Quality testing begins right from the component selection, manufacturing process regulation, stage inspection and upto final acceptance testing with customers. We have a full-scale computerized test facilities / test jigs etc. And our quality policy is entitled with "deliver our products and services to customers with quality and on-time delivery at optimum cost".

#### CERTIFICATIONS & ACCOLOCATIONS

PCB ASSEMBLIES WITH GLOBAL STANDARDS

- AN ISO 9001:2015
- RoHS PRODUCTS
- ATEX CERTIFICATION
- NABCB QM101 CERTIFICATION
- RDSO APPROVED
- CE-CERTIFIED PRODUCTS
- IATF 16949

#### INDUSTRIES WE SERVE

- AUTOMOTIVE
- MEDICAL
- RENEWABLE ENERGY
- CONSUMER ELECTRONICS
- AVIATION & DEFENCE
- ENGINEERING
- LIGHTING
- AUTOMATION
- OIL & GAS
- RAILWAYS
